Description

When you are on the ContactList activity, select a group.
Switch screen orientation, you'll get back to the default group and not the one where you were.

That's a problem.

Minor problem.

#2 - 11/17/2009 12:25 PM - Vincent Véronis

Je peux faire afficher la contact list qui correspond au groupe avant le switch.

Mais en revanche je n'arrive pas a mettre le banner adapter (liste des groupes horizontales) sur la position du groupe avant le switch, par default l'adapter se positionne au debut de la liste .

Faire modification ou laisser le comportement ?!

Tu fais la modification si ça marche aussi pour la banner sinon tu touches pas.
