<b>Description</b>			
<p>Problem part 1: I freshly started beem 0.1.7_rc1 from f-droid.org. I tap the first name in my rooster to open a chat with that person and get a force close dialogue. Second person works, third as well, fourth doesn't. No immediate scheme visible - maybe it's about their client?</p> <p>Problem part 2: the beem status icon stays in the notification bar. way a: If i open beem from there I see the change status dialogue, changing to the rooster gets me an empty rooster. i can close via "menu" - "disconnect". way b: starting beem from its launcher/icon i see the connection dialogue as if I start from scratch.</p> <p>Problem part 3: after closing beem now the status bar icon is gone, but beem is still running according to my task manager.</p>
