<p>On Ice Cream Sandwich Google Talk looks much better now and i like the interface. The Android Design Guidelines ( <a href="http://developer.android.com/design/">http://developer.android.com/design/</a> ) provide information on how an application should look like.</p> <p>Here are some screenshots: Google+ Messenger MUC: <a href="http://www.google.com/mobile/+/messenger.png">http://www.google.com/mobile/+/messenger.png</a> Google Talk: <a href="http://www.androidpolice.com/2011/10/26/getting-to-know-android-4-0-part-2-google-talk-gets-a-facelift/">http://www.androidpolice.com/2011/10/26/getting-to-know-android-4-0-part-2-google-talk-gets-a-facelift/</a></p> <p>I started changing some layouts etc. - though it is not ready.
