<b>Description</b> <i>This is a duplicate of a feature <a href="#">#325</a></i>  Issue was posted a year ago now. Would like to know if this will be done. I suppose <i>lots</i> of people use <i>only</i> online and offline status, while there is no time to use other =p  But I am forced to see the Status Activity every time I hit Beem icon in a statusbar - after I have to hit one more button to open contacts.
