#### Description

Hi Support,

I want to customize Beem-Jingle project for that I need the source code of asmack-android-10-beem.jar which is the part of Beem-Jingle(<http://beem-project.com/hg/>) project.

Can you please provide me ?

Thanks,

Yakub

Thanks Frédéric Barthéléry

I should recommend that please update the file extension in the link you provide

from ./build.batch -j -c to ./build.bash -j -c

because I did not find any batch file in it.

One more Question I want to build this source but when I tried to build, It asking me :

```
Reversed (or previously applied) patch detected! Assume -R? [n]
```

I can not understand what's the above question for ?

Can you please suggest what should I do ?

Thanks,

Yakub
